EDUCATION

Shivaji University, Kolhapur.

SSC Board Exam completed in 2018 with 72.20% marks
HHC Board Exam completed in 2020 with 75.69% marks
Bachelor's Degree in Bachelor of Computer Application 2020 – 2023 with 77.19% marks
Post Graduation in Master of Computer Application (2024–2026, Pursuing)

EXPERCINCE

Python Full Stack Developer Intern
Wolfoxx Services Private Limited — Kolhapur, Maharashtra
Jul 2025 – Oct 2025

- Completed a 3-month on-site internship focused on Python Full Stack Development.
- Developed web application features using Python, Flask, HTML, CSS, and JavaScript.
- Integrated MySQL databases for storing and managing application data.
- Worked on real-time projects including Crop Shield: A Crop Health Management System during the internship.
- Implemented frontend UI components and backend logic for web applications.
- Gained hands-on experience with full-stack development workflow, debugging, and database integration.

PROJECTS (5+)

Crop Shield: A Crop Health Management System *(Internship Project)*
Tech: Python, Flask, MySQL, HTML, CSS, JavaScript
Developed a web-based crop health management system to help farmers identify diseases and receive expert recommendations.

- Built Farmer & Admin panels for query submission and management
- Integrated MySQL database for storing crop and user data
- Implemented authentication and email notification system
- Designed responsive UI using Bootstrap

EduLink – Student Collaboration Platform *(College Project)*
Tech: Python, Flask, MySQL, HTML, CSS, JavaScript
Developing a student collaboration platform for sharing study resources, managing tasks, and improving academic communication.

- Implementing user authentication and profile management system
- Building notes sharing, task management, and discussion modules
- Designing interactive dashboard with productivity tools (Pomodoro, analytics)
- Creating responsive and user-friendly interface

College Event & Talent Show Management System *(vibe coding)*
Tech: HTML, CSS, JavaScript, Python, MySQL, Chart.js
Developed a platform to manage college events, participant registration, voting, and judge-based scoring.

- Implemented role-based system (Student, Participant, Judge, Admin)
- Built public voting system with anti-duplicate protection
- Developed leaderboard using combined scoring (Judge + Public vote)
- Created admin dashboard with analytics and charts

CERTIFICATIONS

- MS-CIT certification
- Prompt Engineering Course
- Ethical Hacking and Cyber Security Certificate.
- Scientific Programming using Python Certification.
- Soft Skill Development Workshop & Certification.
